WHY CHOOSE THIS PROGRAMME?

- **Faculty trained in AI applications** by Carnegie Mellon University.
- **Two tracks with strong employability focus, one AI edge:** Finance & Data Science or Development & Policy anchored by one AI & Computational Methods core.
- **AI woven into the curriculum :** not a bolt-on module, but deeply integrated into teaching and learning both.
- **Opportunity to work on a dissertation** in an additional semester
- **State-of-the-art theory** alongside frontier computational tools: students learn when to go classical and when to go AI.
- **Flexible entry :** one year for four-year degree holders, two years for three-year degree holders; both pathways converge on the same rigorous M.Sc. foundation
- **Career-ready and PhD-ready :** graduates equipped with the computational fluency and analytical rigour to succeed in finance, policy, consulting, or doctoral programmes anywhere in the world
