# GREEN HYDROGEN

## SUMMIT 2026

**December 17–18, 2026**

**SRM University-*AP*, Amaravati, Andhra Pradesh**

**Organised by SRM University–*AP* & Govt. of AP**

# Overview

The Green Hydrogen Summit 2026 will mark the next phase of India's green hydrogen journey-moving from vision setting to evidence-based execution, measurable progress and accountability.

The Summit will review progress made over the past year and align ongoing initiatives with the objectives of the National Green Hydrogen Mission.

The event will bring together policymakers, industry leaders, researchers, technology developers, investors and startups to identify concrete pathways for policy, investment, industrial deployment, research and commercialisation.

## Salient features of the Green Hydrogen Summit 2026:

- Establishing electrolyser manufacturing capacity of 2 GW by 2027 and 5 GW by 2029.
- Achieving 1.50 MMTPA green hydrogen production capacity by 2029.
- Achieving cost reduction from Rs. 460 per kg to Rs. 160–170 per kg by 2029.

## Thematic Areas

- Green Hydrogen Production
- Industrial Applications
- Electrolysers & Manufacturing
- Storage, Transportation & Distribution
- Safety, Testing & Certification
- R&D, Innovation & Commercialisation
- Hydrogen for Mobility
- Policy, Investment & Market Creation
